Eman Sulieman N. Alshehri

Nationality: Saudi | Date of Birth: July 1982
Arabic language: Native | English Language: Excellent
Email: esalshehri@iau.edu.sa | Phone: +966557095566
Address: AL Khobar, Saudi Arabia

Professional Profile

I am an academic and researcher specializing in Artificial Intelligence and Data Science, with a strong interest in leveraging intelligent technologies to solve complex real-world problems. My research focuses on Artificial Intelligence, Data Science, Human–Computer Interaction, and Digital Health, particularly in the development of intelligent systems that support informed decision-making, enhance user experiences, and drive innovation. I value interdisciplinary collaboration and strive to bridge the gap between research and practice through impactful, technology-driven solutions.

Education

- Doctorate from University of Newcastle, Australia (2023)
- Master Queensland University of Technology, Australia (2014)
- Bachelor from King Saud University, Saudi Arabia (2007)
- Certifications:
    - Certificate of Student Assessment – 6 months (CSA2023-2024), University of Turku, Finland (2024)
    - Certificate in Informing Science and IT Education, University of Wollongong, Australia (2014)

Professional Experience

Assistant Professor, Computer Department
Imam Abdulrahman Bin Faisal University (2018–Present)

- Teaching and mentoring students in computer science, cybersecurity, and computer Information systems.
- Developing eLearning content and integrating modern technologies into the curriculum.
- Conducting impactful research in computer science filed

Health Tracks Academic Coordinator

Deanship of Preparatory Year and Supporting Studies, Imam Abdulrahman Bin Faisal University (2023–Present)

- Overseeing academic activities and programs for Health track, Nursing and Public Health college tracks students.
- Leading initiatives to enhance student learning outcomes and engagement.

Hackathon Organizer
Deanship of Preparatory Year and Supporting Studies, Imam Abdulrahman Bin Faisal University (2026)

- Coordinated a Programming and Problem-Solving Hackathon for the 4th year, with a team from the computer department at IAU for male and female students, fostering creativity and collaboration.

Research

- ORCID: https://orcid.org/0009-0005-3288-4271

Key Achievements and Skills

- **Technical Expertise:**
  - Proficient in SAP, Oracle databases, and programming languages (Python, C++).
  - Skilled in designing with some illustration applications such as Adobe Photoshop and AutoCAD.
  - Skilled in research tools such as SPSS, NVivo, and EndNote for data management and qualitative analysis.
- **Innovative Teaching:**
  - Designed an Electronic educational program for children aged 3–5 to teach English basics.
  - Created a scientific blog showcasing Web 2.0 applications on WordPress.
- **Leadership and Collaboration:**
  - Successfully managed interdisciplinary teams for academic projects and student initiatives.
  - Delivered webinars on education in diverse contexts in Newcastle University Australia.
  - Presented several webinars through the previous academic years to engage students around different topics at IAU.
- **Communication and Training:**
  - Conducted client relations training for professionals (Al-Rajhi Islamic Bank, 2008).
  - Participated in international forums, including the "Education in Diverse Contexts" webinar (2022).
