Career Experience

Siemens Healthineers | Riyadh, Saudi Arabia **Sept 2020 – Present**

Innovation and Scientific Partnership, Innovation Center Manager RHQ Jan 2025 – Present

Driving innovation through fostering cross-industry collaborations, scouting emerging technologies, and establishing strategic partnerships. I spearhead initiatives to develop and implement innovative projects, create training content for innovation programs, and organize events to promote creativity. My role is centred on identifying trends, supporting project development, building effective relationship with main stakeholders, and delivering impactful solutions that advance organizational goals.

Customer Service – Application & Education Manager Sept 2020 – Jan 2025

Implement initiatives that elevated customer satisfaction and fostered loyalty within Application Services by deploying tailored strategies, solutions, and events. Systemise operations through innovative education solutions, resulting in substantial improvements to customer experience. Engage effectively with stakeholders, including C-level executives, ensuring seamless alignment between client expectations and service delivery.

- Steered the team in Saudi to meet global objectives, emphasising enhanced customer experience and strategic partnerships.
- Optimised workflows to foster strong stakeholder relationships, driving operational efficiency and boosting productivity.
- Enhanced KPIs by systematically analysing and addressing key performance metrics, leading to improved customer satisfaction and service delivery standards.
- Increased education sales through tailored programs and digital education solution, resulting in higher customer engagement and loyalty.

Tamer Medical Group | Riyadh, Saudi Arabia **Sept 2018 – Sept 2020**
Guerbet: Product & Application Specialist

- Addressed product queries and supported new product initiatives.
- Conducted product demonstrations and recommended revenue-enhancing strategies.
- Identified new market opportunities and reported to management.

United Imaging - Account Manager (Radiology Equipment)

- Managed radiology equipment accounts and provided expert support.
- Proactively identified and communicated new market opportunities.

Prince Mohammed bin Abdulaziz Hospital | Riyadh, Saudi Arabia **Apr 2015 – Apr 2018**
MRI Supervisor

- **Team Management:** Developing procedures, standards, and schedules for the MRI team.
- **Facility Operations Supervision:** Oversaw day-to-day facility operations in alignment with policies and guidelines.
- **Quality Improvement Involvement:** Participated in quality improvement assessments, evaluating procedure results for quality and accuracy.

Alhabib Medical Group | Riyadh, Saudi Arabia **Sept 2015 – Apr 2016**
MRI Technologist – Part Time

Conducted patient screenings for MRI compatibility and adhered to departmental protocols. Provided clear explanations of Magnetic Resonance Imaging procedures during patient interviews, ensuring a positive experience. Partnered closely with radiology teams to deliver high-quality and timely patient care.

King Fahad Medical City | Riyadh, Saudi Arabia **May 2013 – May 2014**
CT Technologist

Executed essential examinations professionally to ensure high-quality outcomes. Integrated CT department policies and standards effectively. Applied proper exam preparations accurately.
