PROFESSIONAL SUMMARY

Highly skilled professional with expertise in problem-solving, communication, and team building. Demonstrates strong leadership and strategic planning abilities, with a proven track record in quality assurance and resourcefulness. Possesses extensive knowledge of radiology informatics, programming, and AI. Multilingual in English, Arabic, and German. Adept at clinical judgment with active awareness of EBM.

WORK HISTORY

Head of Radiology 01/2025 - Current

Care Medical Group - AlSalam Hospital - Riyadh, Saudi Arabia

- **Led full departmental restructuring** with a focus on workflow efficiency, reporting quality, protocol optimization, and interdisciplinary communication.
- **Standardized reporting structures across all modalities;** enhanced diagnostic accuracy and consistency, especially in MSK and advanced ultrasound imaging.
- **Implemented AI-driven tools, radiology informatics, and structured reporting** to improve speed, quality, and decision support.
- **Oversaw QA, radiation safety (ALARA), and strategic administrative functions** including protocol governance and capacity planning.
- Maintained full **frontline radiologist coverage**, delivering high-quality interpretations across routine and complex cases with a subspecialty focus on **MSK and advanced ultrasound**.

Radiologist 01/2024 - Current

Radkit

- Developed **RadKit**, a modular web platform enhancing radiology workflows, structured reporting, and clinical decision support.
- Integrated **AI-assisted tools** and customizable data workflows to boost efficiency and maintain vendor independence.
- Built on a secure, scalable cloud infrastructure with structured access control and real-time performance optimization.
- **Supported by Saudi SME Authority**, validating its innovation, real-world utility, and growth potential.

Radiologist 10/2022 - 12/2023

Charite University Hospital

- **Led interdisciplinary collaboration** with Rheumatology, Surgery, and GI teams to manage complex cases through integrated imaging insights.
- **Optimized PACS workflows** (Visage) and trained staff in post-processing and efficient image management.
- **Built custom automation tools** using Python and AutoHotkey to streamline protocols and radiological calculations.
- **Specialized in Pediatric and MSK imaging**, with emphasis on ultrasound protocols and advanced MSK MRI interpretation.

Radiology Resident 03/2017 - 10/2022

Charite University Hospital

- **Adapted quickly to a multicultural clinical environment**, overcoming language barriers and strengthening interdisciplinary communication.
- **Hands-on experience across all major imaging modalities**, including MRI, CT, ultrasound, and X-ray, under structured supervision.
- **Trained in trauma imaging protocols** at a major Berlin trauma center, performing FAST scans, trauma CT planning, and emergency X-rays.
- **Certified in radiation safety**, ensuring strict adherence to protection standards in all radiological procedures.
- Committed to **continuous professional development** through RSNA, MRI Online, and MSK-focused workshops.

Radiology Resident 10/2013 - 04/2015
Ministry Of National Guard Health Affairs (MNG-HA)

- **Managed high-volume imaging and on-calls** at one of Saudi Arabia's busiest trauma centers, rotating across all modalities.
- **Served as Deputy Chief Resident**, overseeing rotation schedules, on-call coordination, and administrative logistics.
- **Collaborated closely with subspecialists**, refining diagnostic strategies through hands-on learning and guided reporting.
- **Expanded clinical exposure** through rotations at major Riyadh centers, including PSMMC and KKUH.

EDUCATION

M.D.: Medicine And Surgery, 01/2013
Imam Abdulrahman Bin Faisal University - Dammam

B2 TELC, Fachsprachprüfung: German Language, German Medical Communication, 01/2017
Charité International Academy - Berlin

CERTIFICATIONS

- SLE-Saudi Medical Selection exam
- German Language certificate Telc B2
- Certificate of the German medical communication exam
- Approbationsurkunde
- Expertise according to Radiation Protection Regulation
- German-board of Radiology
- RSNA Imaging AI - Advanced Certificate

AWARDS, ACCOMPLISHMENTS, AND HONOURS

Co-developed and clinically validated RadKit, a radiology reporting platform integrating AI-assisted dictation, structured templates, and a dynamic knowledge base to streamline workflows, enhance diagnostic accuracy, and support real-time clinical decision-making.

Invited speaker at the upcoming RSSA Annual Meeting 2025, presenting on the application of **AI in musculoskeletal imaging** as part of the dedicated AI subspecialty track.

HOBBIES AND INTEREST

- Bodybuilding and strength training
- Coding and AI prototyping

- Scuba diving (PADI certified)
- Strategic and immersive video gaming
